For multiple units, please contact us, specifying quantity required, and your shipping address.

- **Items included:**
  - **Converter:** The Model 9003 LIN/RS-232 Converter module itself.
  - **RS-232 cable:** Straight-through DB9 cable leading from the LIN/RS-232 Converter to a 9-pin male serial communications port on a PC or PLC.
  - **PC software:** CD including software for a Windows®-based program that allows you to send and receive LIN bus messages. Not a complete LIN protocol stack, but a demo program for sending and receiving messages to an attached automotive ECU. Programmable LIN baud rate. Source code is included (Visual Basic 6.0 and VB 2005), and serves as a starting point to develop your own ECU test programs. See the User's Guide on our website for details.
- **Extra-cost options:**
  - **Custom LIN software:** Contact Silicon Engines for a quote on custom LIN software for a PC or ECU.
